

Summary of Decision nr.1/13.01.2009 regarding the acquisition of SC Avicola Brasov SA
and SC Nutribuz Sahateni SA by Mr. Ioan Popa

THE COMPETITION COUNCIL HAS AUTHORIZED THE TAKE-OVER OF SC AVICOLA BRASOV SA AND SC NUTRIBUZ SAHATENI SA, MADE BY MR. IOAN POPA.

The Competition Council has authorized the economic concentration made by Mr. Ioan Popa by getting sole control over SC Avicola Brasov SA, and, by default, over SC Nutribuz Sahateni SA, controlled by SC Avicola Brasov SA.

The economic concentration mainly takes place, in the sector of poultry meat production and distribution and in the sector of compound feed. Geographically, the relevant markets are national ones, because the implicated products are present in all areas of the country, and are accessible to all buyers.

Taking into account that the effects of the notified economic concentration on the competition environment are not significant, the concentration did not lead to the making or strengthening of a dominant position on the identified relevant markets.

The notified economic concentration was analyzed under the provisions of the Competition Law (no. 21/1996) and under the Regulation on economic concentrations, and resulted no serious doubts concerning its compatibility with a normal competition environment. Therefore, the Competition Council issued a non-objection decision.
